Site inspection report of the Deputy Conservator of Forest

1. The user agency will dig trench for laying out gas pipe line. The trench plan layout map is enclosed. The user agency is trying to hide the dimension of the trench. The user agency has mentioned the bottom width of trench which is 60 c.m. The top width of trench is 1 m. In verbal discussion the user agency clearly mentioned that top width of trench will be 1 m.

Accordingly the diversion of forest land is calculated as 2.1410 Ha. Calculation sheet enclosed.

2. The area proposed for forest clearance (road side P.F.) has 0.2 density vegetation. Clearance under Forest conservation Act, 1980 may be granted to the user agency.
3. The nearest sanctuary i.e. the Bareilla Salim Ali bird sanctuary (Vaishali district) is situated about **100** kilometres from the proposed Road.
4. All the maps/enumeration list etc. has been duly countersigned and enclosed.
5. Distance from the nearest P.F land: "the land along the proposed road side is itself declared as notified protected forest".
