

**Site Inspection Report In Respect Of The Land Diversion Proposal Received Vide State  
Serial No. FP/TR/REHAB/50682/2020**

The site inspection of the forest land proposed for diversion was done on **16.10.2020** along with officials from Forest Department, and representative of the User Agency.

The observations were recorded as follows:-

1. The site inspection of the land involved in the proposal has been done on dated **16.10.2020**.
2. On inspection of the site, it is found that the land required by the User Agency is a forest measuring 20 Ha.
3. The requirement of forest land as proposed by the User Agency in Col. 2 of part-1 is unavoidable and is barest minimum required for the project.
4. The forest land proposed for the diversion is located within the forest boundary under Dharmanagar Forest Sub-Division.
5. There are some wildlife present in the area, there are a species of reptiles present in the area especially some snakes, such as Twin Spotted wolf snake (*Lycodon jara*), Common worm snake (*Typhline brahmina*), bronzeback tree snake (*Dendrelaphis tristis*) etc also certain other reptiles so an interpretation center for the conservation of snakes may be made in lieu of the diversion.
6. The Proposed area is surrounded by forest area, and requires fencing through chainlink.
7. The area does not form part of National Park, wildlife Sanctuary, Biosphere reserve, Tiger Reserve, Elephant Corridor etc, there are a few make shift settlements of the refugees in the area.
8. The nearest distance of proposed land for diversion is 14.05 Km from the boundary of the Rowa Wildlife Sanctuary.
9. No unique species of flora and fauna have been reported in the area.
10. The area is no protected archaeological / heritage site and there is no defense establishment.
11. There are no important religious sites.
