

PART III

(To be filled by the concerned Conservator of Forests)

14. Whether site, where the forest land involved is located has been inspected by concerned Conservator of Forests (Yes/No) If yes, the date of inspection & observations made in form of inspection note to be enclosed :

No

(Not mandatory as per the guidelines)

15. Whether the concerned Conservator of Forests agree with the information given in Part-B and the recommendations of Deputy Conservator of Forests. :

Yes

16. Specific recommendation of concerned Conservator of Forests for acceptance or otherwise of the proposal with detailed reasons.

The proposed area is a water collection point of a watershed and the area proposed for diversion is covered with open patches and scrub vegetation with majority of the tree growth falling in the diameter class of 0-30 and 30-60cm. The proposed project aims at benefiting 6 villages that are located in the downstream area by way of improving the ground water table in the region. As an added benefit, this will ensure availability of water for the wildlife in the region and reduces conflict by way of avoiding migration of wildlife into the habitation areas. Hence, permission may be accorded with all the necessary conditions.
