

Recommendation for acceptance of the proposal

The proposal for diversion of 111.05 ha of forest land for stringing and construction of 132 KV electric transmission line from Kakching to Moreh, Manipur will not involve large scale felling of trees but clearing of 3m width linear strip along the right of way of the strings/conductors. As such, no significant impact on the existing forest ecosystem is anticipated.

On the other hand, the project will ensure uninterrupted power supply to the border township of Moreh, thereby improving the quality of life of the people living in Moreh.

Hence, the proposal is recommended for acceptance.

Dated, the 19th January 2016

(R.K. Amarjit Singh)
Deputy Conservator of Forest and DFO
