**Field Inspection Notes of Forest Divisional Officer, Manuguru on proposed Renovation/ Laying of underground pipeline besides the existing pipeline from Iravendi village to ITC Bhadrachalam Paper Boards Ltd., Sarapaka falling in Manuguru division in favour of M/s ITC Limited.**

I along with concerned staff have inspected the proposed diversion area for Laying Underground pipe line on 16.01.2021. The proposed area for Laying of Pipe Line passing through Compt. No.221 to a length of 1434 Rmt and Compt. No.224 to a length of 1570 Rmt of Kistasagar RF. The user agency has proposed width which is varies from 12.2 to 14.3 Mtrs based on the field condition. Therefore, the actual requirement of the proposed diversion area is **4.2768 Ha.**

The existing pipeline to other end boundary average width is 12.2 to 14.3 mtrs, in that, existing pipeline dia meter varies from 0.9 mtrs to 1.4 mtrs, existing power line located from existing pipeline is 3 mtrs away and electrical line width is 6 mtrs. The new pipeline proposed is within the existing width. The distance from the outer electrical pole to boundary is 3 mtrs, this 3 mtrs is used for carrying the pipeline during installation and it will be used for during maintenances. Hence the width is 12.2 to 14.3 mtrs is minimum requirement for existing pipeline, powerlines and new proposed pipeline

In the proposed area, any rare / endangered / unique species of flora and fauna are not found. Likewise no protected archaeological / heritage site / defense establishment or any other important monument is located.

The proposed forest is not falling in any National Park, Wildlife Sanctuary, Biosphere Reserve, Tiger Reserve and Elephant Reserve Corridor. **This Proposed pipeline does not falling in Eco sensitive zone of Kinnerasani Wild life Sanctuary.**

The area is having 0.1 Density in the proposed area for diversion for laying of underground Pipe line.

No work in violation of the Act has been carried out by the User Agency.

Hence recommended.
