SITE INSPECTION REPORT NOT BELOW THE RANK OF DCF/DFO
(For the Forestland to be diverted under FCA)

A proposal has been received by this office from **HRTC** for diversion (under FCA - 1980) of **0.4050 Hectares** of forest land for non-forestry purpose. The subject envisages the use of forest land for the construction of Bus Stand Luhri. The site inspection of the land involved in the proposal has been done by me on dated **21.08.2020**.

On inspection of the site, it is found that land required by the user agency is a forest area measuring **0.4050 Hectares**.

The requirement of forestland as proposed by the user agency in Col.2 of Part-1 is unavoidable and is barest minimum required for the project.

Whether any rare/endangered/unique species of flora and fauna is found in the Area. If so, the details thereof.

-NO-

Whether any protected archaeological/heritage site/difference establishment or any other important monument is located in the area. If so, the details thereof with NOC from competent authority, if required.

-NO-

a) **The user agency has not violated the provisions of Forest (Conservation) Act, 1980 and no work has been started without proper sanction.**

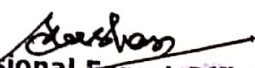

b) It has been found that the user agency has violated the Forest (Conservation) Act, 1980/ Indian Forest Act, 1927/ any other forest Act. A detailed report as per Para 1.9 of Chapter 1, Part-C of hand book of Forest (Conservation) Act, 1980 Attached.

(Note: - Whichever of the above is applicable should be shown in bold letters)

The proposal is recommended for diversion of 0.4050 hectares of forest land for the construction Bus Stand Luhri. The project proponent/User Agency is further required to adhere to the following conditions:-

1. Ensure that no muck/debris is thrown/dumped on the stream bed. The muck be dumped on the designated dumping sites only and its rolling down be stopped effectively.
2. Before initiating the work the dumping sites be prepared by erecting protection walls to avoid rolling down of debris to the stream.
3. The excavation is carried out in scientific way to avoid rolling down of stone etc.
