

SITE INSPECTION REPORT

Title of the Project: Widening / Strengthening / Up-gradation to two lane with paved shoulder from existing chainage km 250.600 to 266.843 (Wajwana-Banswara) Section of NH-927A in the State of Rajasthan 4.99 Ha.

Proposal No. : FP/RJ/ROAD/33680/2018

A proposal has been received from Executive Engineer, PWD, NHAI Division, Banswara (Raj.) for diversion (under FCA-1980) of 4.99 ha. of forest land for non forestry purpose. The subject envisages the use of forest land for Widening / Strengthening / Up-gradation to two lane with paved shoulder from existing chainage km 250.600 to 266.843 (Wajwana-Banswara) Section of NH-927A in district- Banswara, Rajasthan. The site inspection of the land involved in the proposal has been done by me on dated 19-06-2019.

On inspection of the site, it is found that the land required by the user agency is a protected forest land measuring 4.99 ha.

The requirement of forest land as proposed by the user agency in Col. 2 of part-I is unavoidable and is barest minimum required for the project.

There are no rare/ endangered/ unique species of flora and fauna found in the area.

There are no protected archaeological/ heritage site/ defence establishment or any other important monument is located in the area.

The user agency has not violated the provisions of Forest (Conservation) Act, 1980 and no work has been started without proper sanction.

As per the proposal submitted by the user agency, large numbers of people will be benefited by the proposed project, hence in larger public interest 4.99 ha. of forest land is recommended for diversion as proposed by the user agency.
