

Recommendation of Chief Conservator of Forests

(Within the part II Item 16)

The project is recommended being minimum required land for drinking water scheme for local people of Paingottoor Grama Panchayathu. The project will help improve the living standard of poor families of agricultural background suffering due to scarcity of water. It is situated in occupied forest land and therefore does not cause any further destruction into forest area. Since area is less than 1 Ha, compensatory afforestation is not needed.

Chief Conservator of Forests
