

## **SITE INSPECTION REPORT OF CF (CC) UNDER THENZAWL FOREST DIVISION**

The stretch of Forest Area under Thenzawl Forest Division which the proposed for widening and up gradation of NH-54 to 2-Lane passes through was inspected by me on 07.08.2020 and I was accompanied by RO. Serchhip and two front-line staff of the inspected site.

The Project Passes through Deemed Forest under Serchhip Range and Bungtlang Range. The Proposed alignment is more less gentle to steep slope. The Proposed up gradation of NH-54 includes widening of the existing road for 2-lane which will involve removal of some part of Department Teak Plantation, Michelia Plantation and Gomari plantation including bamboos, shrubs, bushes and grasses along the road on the uphill sides and part of downhill sides.

The total area of Forest land to be diverted is 3.893 Ha (out of 8.9856 Ha) under Central Circle. There is no archeological /heritage site, defense establishment or any other important monument or protected area in the proposed area as well there is no rare and endangered species flora and fauna reported in the project area.

Yours faithfully,

(C. VANLALÊNA)  
Conservator of Forests  
Central Circle
