

## **Certificate regarding suitability of Compensatory Afforestation Land**

This is to certify that the Compensatory Afforestation area has been identified in the non-forest land in Survey Field No. 692/5 of No.18 Kammampatti village. The non-forest land has been inspected by me on 13-12-2022. This non-forest land is supporting good growth of vegetation such as *Acacia nilotica*, *Prosopis* sps, *Acacia leucophloea*, *Azadirachta indica*, *Albezzia lebbeck*, *Acacia ferruginea* etc. This area was planted during 1975-1980 under Social forestry Scheme. Considering the good growth & stock of the plantation, in the non-forest land planting of seedlings as proposed earlier in the CA scheme is not possible.

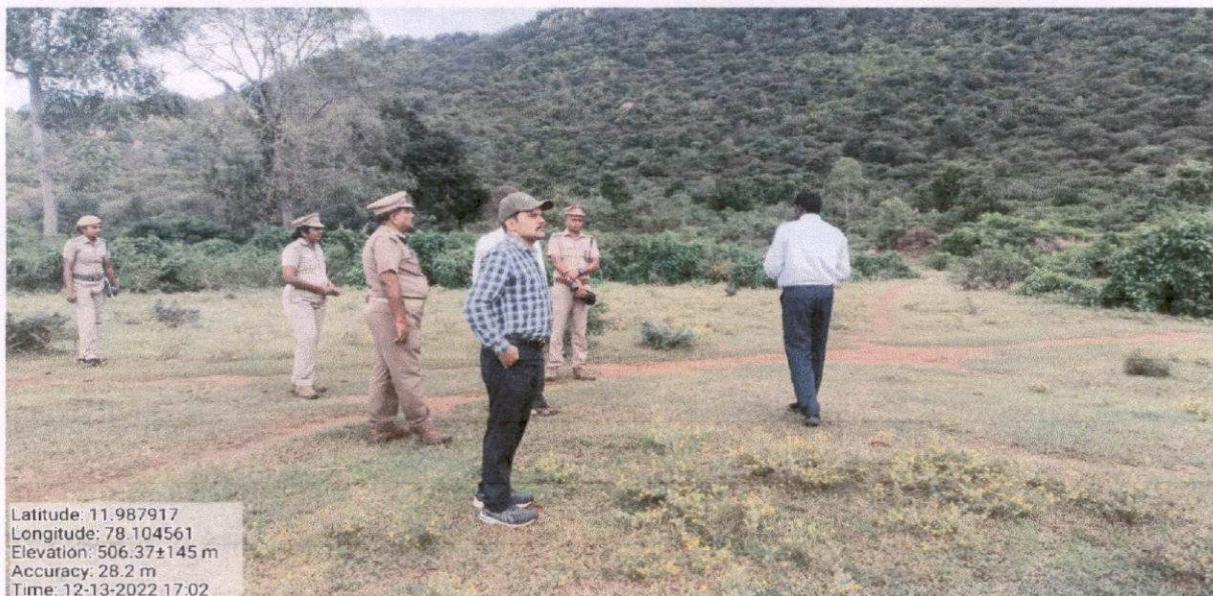

Therefore the Compensatory afforestation to be raised at **Thoppur Reserved Forest (Degraded Forest area)** in 5.82Ha of Dharmapuri Range. This portion of the Thoppur Reserved Forest area also inspected by the REC subcommittee along with the District Forest Officer, Dharmapuri and ascertained that this area can be chosen for the CA area for protecting this forest area from encroachment and to improve the vegetation in the area. It is quite suitable for raising compensatory afforestation. It is also approachable and manageable on protection point of view. For this purpose, the user agency has given necessary undertaking for payment of cost for Compensatory Afforestation as fixed by the Forest department.

Hence it is decided to raise the compensatory afforestation plantation in the degraded forest area at Thoppur Reserved Forest of Dharmapuri Range to achieve optimum survival. Hence, this may be accepted.

  
K. D. Dhan  
District Forest Officer,  
Dharmapuri Forest Division,  
Dharmapuri.
