## **ANNEXURE**

(See Rule-6)

Form for seeking prior approval under section 2 of the proposals by the State Government and other authorities

PART-1 (to be filled up by agency)

Project Details   Short narrative of the proposals and project /scheme for which the forest land is required   Name of the work: Providing approach road from IP Mambattu Phase-I to IP Mambattu Phase-II, Tada Mandal, SPS Nellore District. The total length of the road covered by Reserve forest is 1.218 KM for a width of 20.0M. This is the only possible road connectivity from IP Mambattu Phase-I to IP Mambattu Phase-II. The existing road is passing on edges of Mambattu village.    Was part the area statement enclosed, 2.30 Ha of forest land, boundary of adjoining forest on a 1:50,000 scale map	1		LU	be filled up by agency)
(ii) Short narrative of the proposals and project /scheme for which the forest land is required  Name of the work: Providing approach road from IP Mambattu Phase-I to IP Mambattu Phase-II, Tada Mandal, SPS Nellore District.  The total length of the road covered by Reserve forest is 1.218 KM for a width of 20.0M.  This is the only possible road connectivity from IP Mambattu Phase-II to IP Mambattu Phase-II.  The existing road is passing on edges of Mambattu tank and other side is existing Mambattu village.  As per the area statement enclosed, 2.30 Ha of forest land, boundary of adjoining forest on a 1:50,000 scale map  (iii) Cost of the Projects  (iv) Justification for locating the project in forest area.  (iv) Justification for locating the project in forest area.  (v) Cost-Benefit (CB)analysis  Cost-Benefit (CB)analysis  Cost-Benefit (CB) analysis is not essential as the forest area proposed for diversion for this road work is < 40.0 Ha and falling in plains.	1	Project Details	:	
from IP Mambattu Phase-I to IP Mambattu Phase-II. The total length of the road covered by Reserve forest is 1.218 KM for a width of 20.0M.  This is the only possible road connectivity from IP Mambattu Phase-II. The existing road is passing on edges of Mambattu vallage.  As per the area statement enclosed, 2.30 Ha of forest land is required for diversion.  (iii) Map showing the required forest land, boundary of adjoining forest on a 1:50,000 scale map  (iii) Cost of the Projects  (iv) Justification for locating the project in forest area.  (iv) Justification for locating the project in forest area.  (v) Cost-Benefit (CB) analysis	(1)	Chart parenting of the		
land is required  Phase-II, Tada Mandal, SPS Nellore District. The total length of the road covered by Reserve forest is 1.218 KM for a width of 20.0M. This is the only possible road connectivity from IP Mambattu Phase-I to IP Mambattu Phase-II. The existing road is passing on edges of Mambattu tank and other side is existing Mambattu village.  As per the area statement enclosed, 2.30 Ha of forest land, boundary of adjoining forest on a 1:50,000 scale map  (iii) Cost of the Projects  (iii) Cost of the Projects  (iv) Justification for locating the project in forest area.  (iv) Justification for locating the project in forest area.  (v) Cost-Benefit (CB) analysis  (v) Cost-Benefit (CB) analysis  (v) Cost-Benefit (CB) analysis  (v) Cost-Benefit (CB) analysis is not essential as the forest area proposed for diversion for this road work is < 40.0 Ha and falling in plains.	(1)			
The total length of the road covered by Reserve forest is 1.218 KM for a width of 20.0M. This is the only possible road connectivity from IP Mambattu Phase-II. The existing road is passing on edges of Mambattu tank and other side is existing Mambattu village.  As per the area statement enclosed, 2.30 Ha of forest land, boundary of adjoining forest on a 1:50,000 scale map  (iii) Cost of the Projects  (iii) Justification for locating the project in forest area.  (iv) Justification for locating the project in forest area.  The total length of the road covered by Reserve forest is 1.218 KM for a width of 20.0M. This is the only possible road connectivity from IP Mambattu Phase-II.  Original map in SI sheet showing the location of the proposed approach road passing through reserve forest area is enclosed.  Rs. 1000.00 Crores for Industries & Rs.7.00 Crores for Road.  The existing Konduru-Kadaluru R&B road passes on the edges of Mambattu tank bund for a length of Km 1.218 and there is no sufficient Right Of Way as there exists Mambattu Village on the other side. Also the existing Industrial Park is far away (0.80 Km) from the R&B road. Further there is no alternate approach road to connect Industrial Park Mambattu Phase-II.  (v) Cost-Benefit (CB) analysis is not essential as the forest area proposed for diversion for this road work is < 40.0 Ha and falling in plains.		project /scheme for which the forest		The contract of the contract o
forest is 1.218 KM for a width of 20.0M. This is the only possible road connectivity from IP Mambattu Phase-II. The existing road is passing on edges of Mambattu tank and other side is existing Mambattu village. As per the area statement enclosed, 2.30 Ha of forest land is required for diversion.  (iii) Map showing the required forest land, boundary of adjoining forest on a 1:50,000 scale map  (iii) Cost of the Projects  (iii) Justification for locating the project in forest area.  (iv) Justification for locating the project in forest area.  (iv) Cost-Benefit (CB) analysis  (v) Cost-Benefit (CB) analysis  forest is 1.218 KM for a width of 20.0M. The existing road is passing on edges of Mambattu tank outpersion of the project of forest area is enclosed.  Original map in SI sheet showing the location of the proposed approach road passing through reserve forest area is enclosed.  Rs. 1000.00 Crores for Industries & Rs.7.00  Crores for Road.  The existing Konduru-Kadaluru R&B road passes on the edges of Mambattu tank bund for a length of Km 1.218 and there is no sufficient Right Of Way as there exists Mambattu Village on the other side. Also the existing Industrial Park is far away (0.80 Km) from the R&B road. Further there is no alternate approach road to connect Industrial Park Mambattu Phase-II. 2	Purpose –wise breakup of the total land required	
SNo	Stretch	Area in Ha
1	Proposed approach road from IP  Mambattu Phase-I to IP Mambattu	2.30
	Phase-II, Tada Mandal, SPS Nellore	2.50
	District for a length of 1.218 Km	
	and a width varies from 0.0 M to	
	20.0M	
	Total area of Forest land required	2.30 Ha
3	Details of displacement of people due to the project , if any	No displacement of people arise due to this project
(i)	No of families	None
(ii)	No of Schedule caste/ schedule Tribe families	None
(iii)	Rehabilitation plan	Does not arise
	Whether clearance under environment (Protection) act 1986 required(Yes/No)	No
5	Details of Certificates /documents enclosed as required under the instructions	<ol> <li>Detailed note on project</li> <li>Full Justification for locating the project in forest area.</li> <li>Certificate for bare minimum area.</li> <li>Undertaking to bear the cost towards compensatory forestation charges</li> <li>Undertaking to bear the cost of NPV / additional NPV</li> <li>undertake to pay the cost of exploitation of tree growth</li> <li>Original Map in SI sheet showing the location of the Proposed approach road passing through reserve forest area is enclosed and authenticated map.</li> <li>Compensatory afforestation land authenticated copy and topo sheet.</li> </ol>
