Old MITC Colony, Hisar.

Memo No. 2/13/2013-1IW

Dated Chandigarh the 30.01.2013

Subject: **Setting of Nuclear Power Project in District Fatehabad, Haryana  
Water Arrangement for cooling regarding.**

Reference: Your office D.O. No. NPCIL/GAPP/PD/2012/S dated 07.12.2012.

In continuation to EIC Irrigation office letter no. 24/6BWS dated 3.1.2006 on the subject cited above, the request of NPCIL regarding re-issuance of approval towards water allocation for NPP (4x700 MW) at Gorakhpur, Fatehabad has been considered by the Government of Haryana and water allocation of 320 Cs. from BML through Fatehabad Branch at the cost of beneficiary/project developer is hereby reconfirmed. Out of 320 Cusecs of water, 160 Cs. shall be consumptive and balance 160 Cs. shall be consumptive and balance 160 Cs. shall be returned to the parent canal.

It will also require construction of alternate link from Yamuna water so that the canal water could be made available in case of non-availability of water through BML in scheduled closures/any breach. This will involve modelling of existing abandoned link from Sirsa Branch the cost of which shall be borne by the project authorities. The project authorities will also get part quantity of water from underground water resources (as water level is high) and from re-cycled water available in nearby towns and town developed at project site.
