

JOINT INSPECTION REPORT.

Joint inspection of site for diversion of land for construction of Water Treatment unit for providing GWSS to PC/NC habitation Goura Group of villages Tehsil Rampur Bushahr Distt. Shimla was done on 23.05.2013

Two possible alignments/sites were proposed by the user agency for construction of Water Treatment Units for providing GWSS to PC/NC habitation Goura Group of villages Tehsil Rampur Bushahr Distt. Shimla. Both these sites comprises Govt./Forest Land. Site No.1 involve 0-09-60 hectare of Govt./Forest and no tree is involves for removal. In the site No.2, 0-10-25 hectare of Govt./Forest Land involved for diversion and no tree felling is required. Keeping in view of the minimum area and no felling of tree, joint inspection committee is of the view that diversion of land coming in the site No.1 involve less forest land and entails no felling of trees and there are Govt./Forest land interspersed in both the alignments, there is no scope for avoidance of Govt./Forest land and diversion of 0-09-60 hectare of Govt./Forest is bare minimum and cannot be escaped.

The joint inspection committee, therefore, recommends that the Govt./Forest land measuring are 0-09-60 hectare coming in the alignment No.1 as detailed in check list-6 enclosed as Annexure-1 be diverted under Forest (Conservation) Act, 1980 for construction of Water Treatment unit for providing GWSS to PC/NC habitation Goura Group of Villages Tehsil Rampur Bushahr Distt. Shimla H.P.
