## Employment Potential:

Quarrying of black granite is very labour intensive. It requires lot of labour for operating compressors and to dress the blocks manually to be required square to rectangular shapes. It is estimated that about 100 to 120 families will be live from this quarry as direct and indirect employment.

## Economic Benefits:

Apart from the above, 500 people will benefit by direct and indirect employment, there are about 25 small scale industries nearby by the applied area which are involved in cutting and polishing granite block from whom black granite is main raw material

## Environmental Impact:

There will be minimal impact on the environment as this project is for quarrying exposed rocky our crops with minimal disturbance of surface soil.
