FORM -A

Form for seeking prior approval under section 2 of the proposal by the State Government and other authorities

PART-I

(TO BE FILLED UP BY USER AGENCY)

1	Project Details:	The C/O CHILLON TO CHOKIMRGWAL ROAD KM 0/00 TO 8/00 bifurcate from Laaldhang Paonta Ronhat Rohru (NH-707) at RD 23/00. The total length of the road is 8.0 KM, which will connect village namely Tikker, Kumer, Kakvadi, Bag and Choki mirgwal. At present there is no link road to these villages except Choki Mirgwal.
	i) Short narrative of the Proposal and project/ scheme for which the Forest land is required.	
	ii) Map showing the required forest land, boundary of adjoining forest on a 1: 50000 scale map.	Attached  Area required for division 1.92 Hact.
	iii) Cost of the Project	Rs. 1200 Lakhs for the construction of this road
	iv) Justification for locating the project in forest area	In Sirmour District, land other than forest land is not available i.e. owing to settlement which declares all land outside private ownership as protected and class-III forest. However the alignment has been decided in such a way that overall number of trees are less and least damage is caused to the forest as compared to other alignment. Other alignments were ignored due to very high adverse impact in the form of potential destabilization of the area beside generating huge quality of unserviceable debris/muck and involving more forest area for construction of road and more length of the road. Three alternate alignments were explored for this purpose.
	v) Cost benefit analysis (to be enclosed)	Area is less than 5 ha., hence not applicable.
	vi) Employment likely to be generated	Permanent Employment.....Zero(0)  Temporary Employment will be 36500 Man days Approx.
2	Purpose wise break up of the total land required	1. Private Land = 1.698 ha. 2. Samlat Land = 1.182 ha. 3. Forest Land = 1.76 ha.

		4. Forest Land involved in Dumping = 0.16 ha.
3	Detail of displacement of people due to the project if any	
	i) Number of Families	Nil
	ii) Number of scheduled caste/scheduled tribe families	Nil
	iii) Rehabilitation plan (to be enclosed)	NA
4	Whether clearance under environment (Protection Act 1986 required.	-No-
5	Undertaking to bear the cost of raising and Maintenance of compensatory afforestation and/or penal compensatory afforestation as well as cost for protection and regeneration of safety zone etc. as per the scheme prepared by the state government (undertaking to be enclosed)	Enclosed as per check list 18 and page no.
	Detail of certificate/ documents enclosed as required under the instruction	Various certificates/undertakings by the User Agency are enclosed as check list no. 34

**SHORT NARRATIVE OF THE PROJECT**

State	:	Himachal Pradesh
Division	:	HPPWD Shillai
Sub- Division	:	HPPWD Sataun
Name of Work	:	C/O CHILLON TO CHOWKI MRIGWAL ROAD KM 0/00 TO 8/00
Category	:	Single lane Motorable Road
Width	:	5 to 7 mtr. (Average)
Total	:	8.00 kms.
Location	:	Gram Panchayat Barwas.

**HISTORY**

The C/o CHILLON TO CHOWKI MRIGWAL ROAD KM 0/00 TO 8/00 bifurcate from Laldhang Paonta Ronhat Rohru(NH-707) at RD 23/00. The total length of the road is 8.00 KM, which will connect village namely Tikker, Kuner, Kakvadi, Bag and Chowki mrigwal. At present there is no link road to these villages except Chowki mrigwal and having a total population of 710 souls.

Owing to typical topography and geology of hills of Himachal Pradesh, road communication is the only economically viable means of transportation in the State.

Since it is a rural road of the area Shillai Constituency, and dependency of the residents of this area on Agricultural and horticulture is beyond doubt. The influence area of the road spread over 15 square kilometer is very rich in the Production of Agricultural products such as Maize, Pulses, Ginger & Tomatoes. With the construction of this road, the transportation activity in the area expected to undergo a major change with the availability of mechanical/automotive transport. There will be considerable saving in transportation of agricultural produce to the nearest road head and the raising of manpower involved shall be in addition. The transportation charges incurred in the import of goods for local consumption shall also be reduced considerably. The benefits with respect of the Public transportation shall be additional. Hence, the road will be for the boost up of economy of the area by giving them the means of mechanical transport for their agriculture produces and other benefits of modern technology.

At Present not much people bring their Produces for marketing due to non availability of transport facility. Therefore, the road on its completion will enable the people to make maximum use of this vital factor of economy.

In this road Project new formation cutting has been proposed in a length of 8.00 km. The road formation creates to a design speed of minimum 20 km Per Hour as provided by IRC SP: 20 Rural manual for mountains terrain in hilly area. Most of horizontal curve has been developed with radius of minimum of 22.87 meters. All curves are transition curves and minimum safe stopping sight distance 20 meters has been ensured. The gradients adopted are not less than 1:15 thus the vertical alignment is good. The road formation shall also be provided with the cross fall of 3% in the carriage way width and 5% shall be ensured on transition curves as prescribed. Extra widening of 2 meters has been proposed in the formation at curved for erosion control. Necessary compensatory afforestation will be carried out by concerning the forest department. However for the erosion the road side drain and cross drainage works will be provided by the PWD Department.

The work of construction and timely completion of this road project is of very great financial benefit for the country in itself. The Project has thus Public involved shall be executed keeping in views its over all welfare.

**JUSTIFICATION FOR LOCATING PROJECT IN FOREST AREA**

At present there is no link road to villages Tikker, Kuner, Kakvadi, Bag and chowki mrigwal having total population 710 souls which is a good number for constructing the road to facilitate the public of that area. The C/O Chillon To Chowki Mrigwal Road Km 0/00 To 8/00 bifurcate from Laldhang Paonta Ronhat Rohru(NH-707) at RD 23/00. The total length of the road is 8.00 KM, which will connect village namely Tikker, Kuner, Kakvadi, Bag and Chowki Mrigwal etc. This road has appeared under MLA priority under Shillai constituency for the year 2019-2020.

Owing to typical topography and geology of hills of Himachal Pradesh, road communication is the only economically viable means of transportation in the State.

Since it is a rural road of the area Shillai Constituency, and dependency of the residents of this area on Agricultural and horticulture is beyond doubt. The influence area of the road spread over 15 square kilometers is very rich in the Production of Agricultural products such as Maize, Pulses, Ginger and Tomatoes. With the construction of this road, the transportation activity in the area expected will undergo a major change with the availability of mechanical/automotive transport. There will be considerable saving in transportation of agricultural produce to the nearest road head and the raising of manpower involved shall be in addition. The transportation charges incurred in the import of goods for local consumption shall also be reduced considerably. The benefits with respect of the Public transportation shall be additional. Hence, the road will be for the boost up of the economy of the area by giving them the means of mechanical transport for their agriculture produces and other benefits of modern technology.

At Present not much people bring their produces for marketing for want of transport facility. The nearest town for selling the agricultural products is Sataun. Therefore, the road on its completion will enable the people to make maximum use of this vital factor of economy.

The alignment of this road was selected in such a way which involves minimum forest land and minimum private land. Alternate alignment was also checked but was not feasible as it involved more forest land and more length of road. There is no Government land other than forest land hence it was not possible to avoid forest land falling in the road project which justifies the reason for locating the project in the forest area.

1.	Proposal No. 1 (P-I) 3.200 kms forest length	1.92 ha	200	Proposed road due to minimum number of trees involved, sufficient population served.
2.	Proposal No. 2 (P-II) 4.035 kms forest length	2.42 ha.	255	This alignment i.e proposal no. 02 comes out 8.835 kms, its length is 0.835 kms more than the proposal no. 1 including Shamlat & Private land. The gradient of the road in some stretches is very steep as compared to proposal no. 1, also the numbers of trees are more i.e. 255 nos. and hence this alignment is rejected.
3.	Proposal No. 3(P-III) 3.680 kms forest length	2.20 ha	251	This alignment i.e proposal no. 03 comes out to be 8.480 kms, its length is 0.480 kms more than the proposal no. 1 including Shamlat & Private land. I am forwarding a resolution of Gram Panchayat Barwas, Dev Block  
Panta Sahib, Distt. Sirmour, regarding construction of road from  
Chillaun to Choki Margwal. During the visit of Honble Chief Minister, on  
17<sup>th</sup> June, 2016 to Distt. Sirmour, deputation of residents of Villages Choki  
Margwal, Tiker Koner (SC Basti), Bahuvat, Urvalda, Kakwari (SC Basti) etc.  
met the Honble Chief Minister and demanded the construction of road from  
Chillaun to Choki Margwal. This road will pass through forest area in  
Kaffota Range. The Honble Chief Minister assured and announced in public  
meeting at Kaffota that this road will be constructed after completion of all  
the formalities i.e. forest clearance, gift deeds etc. I would be grateful if this  
case may be pursued and joint inspection for forest clearance and survey may  
be done immediately.

The Superintendent Engineer, PWD, Nahan is requested to do the

*(For the Forest land to be diverted under FCA)*

A proposal has been received by this office from **Executive Engineer, (B&R) Division Shillai, HP PWD, Shillai** for diversion (under FCA-1980) of 1.92 ha. of forest land for non-forestry purpose. The subject envisages the use of forest land for **CONSTRUCTION OF CHILLON TO CHOWKI MRIGWAL ROAD KM 0/00 TO 8/00 IN TEHSIL KAMRAU, DISTT. SIRMOUR, HP.** The site inspection of the land involved in the proposal has been done by me on dated **06/11/2019**.

On inspection of the site, it is found that the land required by the user agency is a forest area measuring **1.92 ha.**

The requirement of forest land as proposed by the user agency in Col.2 of part-1 is unavoidable and is barest minimum for the **CONSTRUCTION OF CHILLON TO CHOWKI MRIGWAL ROAD KM 0/00 TO 8/00 IN TEHSIL KAMRAU, DISTT. SIRMOUR, HP.**

Whether any rare/endangered/unique species of flora and fauna found in the area. If so, the details thereof. **(No).**

Whether any protected archaeological/ heritage site/ defence establishment or any other important monument is located in the area. If so, the details thereof with NOC from the competent authority, if required. **(No).**

(a) The user agency has not violated the provisions of Forest(Conservation)Act, 1980 and no work has been started without proper sanction. **(No)**

(b) It has been found that the user agency has violated the Forest (Conservation) Act, 1980 provisions. A detailed report as per para 1.9 of Chapter 1, Part C of Hand book of Forest (Conservation) Act, 1980 is attached). **(Yes)**

*(Note: Wherever of the above is applicable should be shown in bold letters)*

**Specific recommendation of acceptance or otherwise of the proposal:** - The case being a project of Public interest recommended for approval under FCA, 1980.

JOINT INSPECTION REPORT

On dated 06.11.2019, joint inspection team comprising of the following officers of P.W.D. Department and Forest Department inspected three road proposals for the C/o Chillon to Chowki Mrigwal road in Tehsil Kamrau District Sirmour H.P. The proposal was seen with view to minimize the involvement of forest land and also to minimize the adverse environment effect due to construction of the road.

Proposal No. 1

Total length of this road alignment is 8.00 kms. The road portion from km 0/00 to 3/200 falls in RF Sataun, Compartment C-3 & C-4. The total length of this proposed alignment through forest is thus 3.200 kms with average width of 5.50 mtrs. The forest land involved is 1.76 ha. for road construction and 0.16 ha. for dumping site, that equals 1.92 ha. of RF is required to be diverted in favour of HPPWD for the C/o this road, whose detail is attached as annexure 1.

Proposal No. 2

As proposal No. 2 comes out 8.835 kms, its length is 0.835 kms more than the proposal no. 1 including Shamlat & Private land. The gradient of this road proposal in some stretches is very steep as compared to proposal no. 1 which is not practically feasible as per the prevailing PWD norms. Also the numbers of trees are more i.e. 255 nos trees. The forest land involved is 2.21 ha. for road construction and 0.21 ha. for dumping site, that equals 2.42 ha. of RF is required to be diverted in favour of HPPWD for the C/o this road, whose detail is attached as annexure 2 and hence this proposal is rejected.

Proposal No. 3

As proposal No. 3 comes out 8.480 kms, its length is 0.480 kms more than the proposal no. 1 including Shamlat & Private land. The gradient of the road in some stretches is very steep as compared to proposal no. 1 and 2 making the construction of this road alignment very uneconomical. Also the numbers of trees are more i.e. 251 nos. trees. The forest land involved is 2.02 ha. for road construction and 0.18 ha. for dumping site, that equals 2.20 ha. of RF is required to be diverted in favour of HPPWD for the C/o this road, whose detail is attached as annexure 3 and hence this proposal is rejected.

The involvement of forest land is unavoidable as whatsoever the alternative proposal is, the feasibility passes through forest land, thus making it inescapable to involve the forest land. The proposal no. 1 identified at the site by the P.W.D. Department is final and is not likely to change at any point of time. The proposal no. 1 is aligned in such a way that there is least possibility of ecological imbalance including loss of trees.

The joint inspection team has come to the conclusion that, proposal no. 1 whose length comes out to be 8.00 kms having RF 1.92 ha. that passes through forest land is essential and minimum forest land is required for the construction of Chillon to Chowkimrigwal road in proposal no. 1.

Hence, Proposal no. 1 is finalized.

The case had to be moved under section 7 of FCA 1980, before starting the work.

g) Block/Compartment/Survey No.	53F/10
h) Area to be afforested	3.84 Hectare

**2). Description of Area:-**

a) Whether the site selected for compensatory afforestation is a land bank or not:

**Yes. The selected site is a land bank.**

b) If the CA site is other than the land bank reason be given:

**Not applicable as the site selected is a land bank.**

c) In the case of non-forest area identified for CA, then what is the distance of CA site from adjoining forest boundary?

**Not applicable as the site selected is a forest area.**

d) Soil Type: **Rocky (soft) and Sandy loom**

e) Topography: **Hilly**

ii) Slope: **Steep / Medium / Gentle**

f) Whether the area is bearing any root stock of vegetation: **No**

**3) Plantation Model:-**

Compensatory afforestation over an area of 3.84ha of degraded forest land is proposed to be raised. The area selected for this purpose is in RF Sataun C-1, which is a degraded forest area and has been a land bank. Whole of the plantation of 3.84 will be raised in a single compact block inside the degraded forest for such purpose. The area indentified for plantation has also been shown on the attached map. Plants @1100 plants per hectare will be planted. Thus 3080 plants under this diversion proposal will be planted in the land bank. The species to be planted will be mainly Broad leaved. The monitoring will be done as per existing monitoring mechanism in the Forest Department at present and also as per G.O.I. instructions.

#### 4). Technical details:-

Technical details of Compensatory Afforestation Scheme are as follows:-

- (a) **General Details:** - An area of 3.84 ha will be taken up for planting under compensatory afforestation scheme in RF Sataun C-1 a single compact block. The area will be protected by barbed wire fencing and broad-leaved species will be planted. Plants will be planted @ 1100 plants per hectare.
- (b) **Spacing:** - 3.0 mtr×3.0 mtr  
**Species:** - Broad Leaved.
- (c) **Plantation Method:-** Nursery grown one year old plants of Broad Leaved species raised in Polythene bags will be planted in 45×45×45 cm<sup>3</sup> pits in the selected area. Bush cutting will be done in the infested area. The plantation will be maintained for subsequent 10 years in which beating up operations will be done. The plantation will be rainfed.
- (d) **Soil and Moisture Conservation Works:** - Contour trenching will be done over the entire area to conserve the available moisture during rainy season so that moisture regime in the area is improved. Minor Soil conservation works like gully plugging, check walls, & check dams etc. will be constructed as per site requirement.
- (e) **Protection (Fencing, Watch man, People's Participation etc.):**- Area will be protected from grazing by erecting barbed wire fencing with RCC fence posts. Further watch and ward and fire protection will be ensured through regular departmental staff.
- (f) **Proposed Monitoring Mechanism:-** The plantation will be monitored as per existing monitoring mechanism in the forest department. The plantation will also be monitored by GoI representatives as per instructions.
