

**O/o the Executive Engineer, WRD,
Thambraparani Basin Division,
Tirunelveli – 2.**

UNDERTAKING

The main ambition of construction of check dam across Thamiraparani river in between Alwarthoppu and Alwarthirunagari village is for artificial recharge purpose. By this rechargeable scheme, 33 wells located in Alagiya manavalapuram and Alwarthirunagari villages are benefitted both for irrigation as well as drinking purposes. There are 11 irrigation wells, 14 irrigation wells and 8 drinking water wells situated in Alagiamanavalapuram, Alwarthirunagari and Thirukkallur village respectively as such total number of wells available with in the rechargeable zone of this check dam is 33Nos. By Adopting duty of 100 acres/ mcft, the total benefitted (rechargeable) area works out to 1522 Acres.

Initially we have applied through online under section 2 of forest (conservation) Act, 1980 for diversion 5.5 Ha of forest land for construction of Checkdam across the Thambraparani river between Alwarthoppu and Alwarthirunagari Villages of Srivaikuntam Taluk in Thoothukudi District Thoothukudi division of KMTR, Tirunelveli circle. After Analysing the technical aspects only 0.98 Ha of forest land is required for construction of checkdam in above said village. So we kindly request to change the Land required for Diversion of forest land as 0.98 Ha instead of 5.50 Ha as applied earlier.

Undertaking to deposit the Cost of Raising Compensatory Afforestation and maintain of Plantation as fixed by the Forest Dept and Willingness to deposit additional amounts if any suggested as obtained owing to the change in planting, technique, enhancement in the ESR etc., demanded subsequently by the Forest Department.

Since the diversion of forest land required for the construction of checkdam is less than 1.00 Ha, identification of Compensatory land may be exempted.

Executive Engineer, WRD,
