Heights are in metres and above Indian mean sea level.

Contours are approximate.

A relative height, "C" represents the approximate height, in metres, between the top and bottom of a steep slope.

The triangulated heights and contours in this sheet have not been adjusted to the heights of the spirit-levelled bench-marks and may not be strictly in accordance with them.

Unmetalled roads are usually motorable and cartable (except in dry season).

Tanks, shown dry, in this area generally contain water from July to December.

Hand signs to show them.

Important buildings are shown in black with names.
