FIG. 2 Public Works Department

NOTES

Height and distance above ground level are used
Contours and elevations

A typical height - distance relationship is shown between the top and bottom of a cross road.

The surface elevations at the base line are provided for control of the road surface.
The ground surface is shown relative to the contour elevations.
The surface elevations of the road surface are shown for the ground surface.
The ground surface is shown relative to the contour elevations.
The ground surface is shown relative to the contour elevations.

Figure 1 is a schematic diagram of the experimental setup. It shows a subject seated at a table, looking at a video screen. A camera is positioned above the screen. A horizontal bar is placed on the table, with the subject's hand on the left end and a force transducer on the right end. The force transducer is connected to a computer system.

CONVENTIONAL SYMBOLS

[illegible]

The image shows a page from a book, likely a manuscript or a printed text in a non-Latin script. The text is arranged in columns, and there is a small diagram or illustration on the right side of the page. The diagram appears to be a simple drawing of a person or figure, possibly a deity or a historical figure, with some text written below it. The overall appearance is that of an old, possibly leather-bound, book.

Handwritten: Baby Forests
Enhandpada-1
