**COMPLIANCE OF THE SHORT COMING IN THE PROPOSAL i.e. ESSENTIAL DETAILS SOUGHT BY
THE FOREST DEPARTMENT
ON PROPOSAL NO. FD/MP./IRRIG/17911/2016 ON dtd. 11 FEB. 2016**

Query Sr. No.	Essential Details Sought by the Forest Department	Compliance / Reply of the Observations by the User Agency	Remarks
1	A-3 (XVII) A competence / authority of the person making this application to make application on behalf of the User Agency is to be attached.	Applicant is an Executive Engineer in user agency Water Resources Department M.P. and is posted in Rockfill Dam Division, Deolond Dist. Shahdol (M.P.). The application in form A for seeking prior approval of central Government Under section 2A Forest (Conservation) act 1980 for Diversion of fresh Forest area has been done as per the instructions of the competent authority.	
2	C-(iii) Complete Survey of India Toposheet indicating boundary of forest land proposed to be diverted is to be attached.	Desired marking on toposheet has now been done and is enclosed herewith vide annexure no. - 1	
3	D-(i)(a) Justification note for location the Project in forest land is not signed.	Bahuti Canal Scheme has been proposed to provide the irrigation to 65000 Hect. land of Rewa and Satna district using the water of Bansagar Dam. The Govindgarh extension forest (located in Kymore hills) is situated between the reservoir of Bansagar dam and Command area of the project. Hence, there is no option except to construction a tunnel for Bahuti Main Canal in forest area.	
4	D-(ii)(a) Final location of alternate is not clear.	The studies for alternate alignment of Bahuti Main Canal has been done at three different locations which is shown as alternate alignment No. 1 and 2 in survey of India Toposheet. From geological investigations, it is found that alignment No. 1 and 2 are not suitable for construction of tunnel due to non availability of suitable geographical strata. And hence, final alignment of tunnel as shown in toposheet (enclosed as annexure no. 2) is only feasible alignment for the project.	

Query Sr. No.	Essential Details Sought by the Forest Department	Compliance / Reply of the Observations by the User Agency	Remarks
5	Details of Cost-Benefit analysis is to be attached	Cost benefit analysis – Proposed project envisages the construction of canal net work to provide the irrigation facility to 65000 Hect. land. The construction of feeder Bansagar reservoir has already been completed in Sept. 2006. Hence, the cost benefit studies are not required in the scope of project.	
6	L(iv)(c) Annexure can not be opened/viewed.	A fresh copy (KML file) of the patch is now being submitted for the purpose. (annexure no. 3)	
7	L(v) Geo referenced map for CA is to be attached instead of satellite map.	Now it is enclosed. (annexure no. 4)	
8	L(v) Survey of India toposheet for CA is to be attached instead of satellite map.	Now it is enclosed. (annexure no. 5)	
9	M(ii)(a) Approval letter of CAT Plan is to be attached.	As stated in point no. (5), the proposed project is a carrier canal with distribution network only. The CAT plan for feedar Bansagar reservoir has already been prepared and completed. Hence, it is not required in the scope of Bahuti Canal Scheme.	
10	M(ii)(b) Approved CAT Plan is to be attached.	As per reply in item no. 9. There is no necessity of approval of CAT plan.	

Executive Engineer
Rockfill Dam Division
Deolond, Dist. Shahdol (M.P.)
