

**Name of Project:** Diversion of 0.32 Ha. of Forest Land for ‘Construction of RCC drain at ward 38 (Loni Lal Bag sabji Mandi) along road side district Ghaziabad of Uttar Pradesh State’.

**Justification for Locating the Project in Forest Area**

As the proposed project road is “Construction of RCC drain at ward 38 (Loni Lal Bag sabji Mandi) along road side district Ghaziabad of Uttar Pradesh State)”.

- It is the best suitable drainage alignment from technical point of view and requiring minimum forest area.
- Earthwork cutting and banking is minimum
- Minimum numbers of trees are affected
- Drainage will have resulted in no water logging inside the reserve forest.

There is no suitable alternative non-forest land to construct the drain (Nala). The proposed construction of drain along road from Balram Nagar Tiraha to Waste disposal Site, Pump house Karawal Nagar Drain Hence, the forest area is proposed for diversion.
