Subject: - Recommendations

The project is recommended because the area to be diverted is unavoidable 0.5975 ha and the trees required to be felled are 14 only (Chir). The project will not have any major impact on flora and fauna of the area. Mitigation measures in the form of Compensatory Afforestation plan over 1.2 ha forest area has been proposed to mitigate the environmental loss due to the project. The proposed road will be the connecting link for the entire area. The road is part of the PMGSY Project which is a strategically very important project. It is therefore recommended that the project may be cleared under the Forest (Conservation) Act, 1980.

Divisional Forest Officer
