

FULL JUSTIFICATION FOR LOCATING THE PROJECT IN FOREST AREA
(UN AVOIDABLE OF THE FOREST AREA FOR THE PROPOSED ROAD)

The proposed road is connecting VKY Samudram to an Grampanchayat Head quarter. The total length of this road is 4.320 km from Km 0/000-2/220 existing BT road and Km 2/220-3/710 earthen track which is in reserve forest and from km 3/710-4/320 existing CC Road. The length of 1.490 km is falling in the reserve forest area of Dakkili beat for an extent of 0.99 hectares. This is the only route for public of VKY Samudram to reach the mandal head Quarter. At Present public is suffering acute problem particularly pregnant women, School childrens. The upgradation of this portion from km 2/220-3/710 to an All-weather road is very much essential. No Non forest area is available for formation of the road hence the nearest minimum forest area proposed for road.

Hence proposals submitted for DGPS Survey to the Principal chief coservator of Forests, guntur and permission was accorded vide Ref, RC No:11095/2016/FCA3 dt:30.07.2016 of the Principal Chief conservator of forests, Hyderabad.
