प्रिय महोदय Dear Sir,

This is in reference to your letter no 6951-53 dated 20/08/2018 together with our response vide reference b) above and your subsequent letters referred at c) and j).

In accordance with your letter referred at a) it was informed that there was a mismatch between revenue map prior to settlement and after settlement and forest land plots has not been indicated in the revised maps and the actual situation is quite different from the records as such area allotted for compensatory afforestation is not feasible.

The matter was taken up at various levels and court vide its proceeding (refer e above) dated 30/09/2019 identified new khasra number , new khasra number falling outside and directed for transfer of part khasra identified as Government land (khasra no 197 & 1388) to forest land as they were falling inside the forest land demarcated area to forest department as per new settlement.

In line with your letter referred at j) above please find herewith abstract information depicting area identified for compensatory afforestation as per Collector's order number together with the Tahsil , Name of village , Khasra number , total area of khasra and area allotted.
