

JUSTIFICATION FOR LOCATING THE DUMPING SITES IN FOREST LAND

The 0.7612 hec. forest land is required by the HPPWD for dumping in respect of construction of road from Thandapani to Shagedhar via Maltha km 0/00 to 3/750 . The dumping sites could not be shifted to wards non forest land to minimize the forest land because the land owners whose land is coming in the alignment of this road have left very less portion of land in their possession and the peoples of economically weaker sections & are unable to donate their extra land for construction of dumping site of this road. However the villagers have already donated 0.3993 hec. of their land for construction of this road after convinced them very hardly by this department. The villagers faces various problems as they have to take uphill to reach their village and is very difficult for them to transport their essential commodities up to their villages in the absence of the road, especially in view of rugged terrain and steep slopes. The villagers have to rush at least 15.00 km on foot to take even minor medical / education facilities.
