

**Title of the Project : Construction of Road From Bindoo to Zamalgam**  
**Verinag road under CRF by R&B Department.**  
**Proposal No.: FP/JK/ROAD/46843/2020**      **Date : 04 - 06 - 2021**

**Reply of Point No. 2 of communication No. PCCF/FCA/3274/2618-20 Dated : 29-10-2021.**

1. Regarding the issue of proposed road passing through dense forest and non-involvement of trees it is submitted that the first part of road starts from village Bindoo , passes through the habitation and private land of locals and joins the already existing Kaccha road leading towards the Bindoo Forest Nursery along the Angle Iron fencing . The part first ends at Bindoo Nursery with adjacent habitation namely Tantray Mohalla Bindoo .The first part no doubt passes through the dense forest of Compartment 64/V but does not involve any tree is further clarified by following photograph :

2.The second part of road passes through Compartment 62a/V of Kokernag Range and 57a/V of Verinag Range and the alignment has been made by practical surveying in such a judicious way that no Forest tree gets involved. However the proposed road passes through encroached Forest land in which broad leaved and Walnut trees of encroachers are presently standing. The following photograph shows the judiciously conducted joint inspection of second part :
