In this regard, it is informed that the data has been tagged to SOI GCP. However, it is observed that the difference in the published coordinates of SOI GCP with the observed coordinates by UA is about 12 m for stretches three and four (14 hours observation time in total) and about 81.3 m for stretches six to nine (35 hours observation time in total), which is not expected. The UA has informed that these locations are existing in the field. They observed the readings by keeping the Base over SOI GCP. Hence, the UA and field officers are requested to inspect the SOI GCP and furnish the detailed report on the location, whether existing or displaced, to decide tagging of data to SOI GCP, if required.

In this regard, UA is informed that piece meal proposals are being submitted in a single district/ division, which is not permissible. Hence, UA is once again requested to assess the entire requirement and prepare the phased program for submission of proposals. Accordingly, UA is requested to prepare the division-wise proposals along with the justification for diversion of additional areas in a complete shape in F©Act,1980 format for RF areas and F©Act,1980 & W(P)Act,1972 format for the areas falling in Protected Areas & their eco-sensitive zones requiring Environmental Clearance, wildlife corridors etc. and to upload the proposals online, obtain acknowledgement and to submit the proposals in a complete shape along with all necessary documents/ information along with the acknowledgement.
