

Justification of location the project in forest area.

Proposed area for connecting the Construction of road from Singtam Dikchu Highway to Ralap dumping site to Linkhu Gaon(Additional) is the only alternative route in consideration with minimum damage done to forest cover and environment.

1. This road is a vital link road connecting the rural areas of Upper and Lower Linkhu Gaon, Ralap etc. for socio-economic upliftment of the rural masses.
2. The link road will connect the major road to Linkhu Gaon and Ralap which are religious places, commuting for the locals as well as devotees from neighbouring states performing religious tours will become much easier.
3. The link road will also benefit the student of Ralap Sec. School commuting from Upper Linkhu and Lower Linkhu Gaon as this route provide a shorter and a less time travel option.
4. It will provide access to social, health and education services and also create employment opportunity to local people.
5. It will generate employment opportunities: During the initial work, temporary employment will be generated for skilled and un-skilled man power of the adjoining locality. The locals can benefit by way of petty contract and construction of protective works. After completion of the road network opportunities of employment for locals in transport sector and tourism sector will improve as the area offers various religious pilgrimage and is a potential tourist hub.
