

**Recommendation Letter**

**Name of the Project:** Construction of 1260 MW Standalone Pumped Storage Component of Saundatti IREP being Developed by Greenko Solar Energy Private Ltd., (GSEPL) [Proposal No. FP/KA/HYD/37723/ 2018.]

I have inspected the Proposed area for diversion on 12-04-2021. The area proposed for diversion is well demarcated on ground. No rare/endangered/threated species of flora and fauna is found in the proposed area for diversion. The requisition of forest land proposed for divewrsion is minimum. The area is fairly flat land with small tree vegetation & planted species.

Keeping in mind of the above facts and my site inspection report, I am of the opinion to recommend approval for diversion of 160.40 ha of forest land.
