

### Specific Recommendation for Acceptance of the Proposal

The Project is a critical Development Initiative for local population and surrounding villages as it is going to form back bone of Optical Network Infrastructure connecting people to Digital world. The project will provide high speed internet services to the Telecom Operators widely help full to local Population. The aim is to increase network penetration and cover gapes in all villages and to improve process and delivery of e-Governance. It will help to step forward with Government to Deliver Electronic Services to the people dealing with Health, Education, Farming, Justice, Security and Financial inclusion and for Global Information like Hosting data on line and engaging Social Media Plat Forms for Governance. Digital Empowerment will be the most important factor to provide universal Digital literacy and make digital sources easily accessible.

As such the Project needs to be cleared for effective Development of the area in particular and whole of UT of J&K in General.
