**SITE INSPECTION REPORT OF DPDA OF CF, EAC, JORHAT**

The proposed development of DPDA of ONGC is located inside Doyang Reserve Forest under Jamuguri Range was inspected by the undersigned and ONGC Officers Chinnamara, Jorhat on 14.03.2020 and report thereof furnished as under:

As per report the proposed diversion area is 2.16 ha (SUAA) was made available to ONGC in 2015 and under Doyang Reserve Forest under Golaghat Division. During my inspection to the site it was observed that the proposed area is devoid of any forest cover. The proposed site is neither a part of any Protected Area nor falls within the Eco-Sensitive Zone of Nambor Doigrung Wildlife Sanctuary which is the nearest Protected Area within Assam. Further no any water body is seen in and around the proposed site.

It is a nonlinear project and aims to develop and drill 1 no of new well DPDA within existing site of SUAA where reportedly Forest clearance is already obtained by ONGC for well name SUAA and the land is used by user agency. The new well DPDA will be drilled within the boundary of 2.16 ha of land.

  
Conservator of Forests,
