

## RECOMMENDATION

The project proponent has requested forest land for laying water pipelines. The area proposed is 0.0824 ha (0.20 Acre). The DCF has inspected the site and submitted that the line proposed does not involve any cutting of trees. As this project is for drinking water to pilgrims visiting Subrahmanya Mutt no felling of trees is involved in this project. Hence the proposal may be considered.

Chief Conservator of Forests,  
Mangaluru Circle, Mangaluru.
