

Site inspection Report

Inspected the site for KSTP PHASE II, P-M ROAD on 15.03.2017. The proposal is for diversion of 0.0745 ha of land for the up gradation of Punalur-Ponkunnam road.

It is seen that the proposed work is at state highway from Punalur – Moovattupuzha. This modification of the road is essential for smooth movement of traffic along the state highway. The area does not have any rare / endangered / threatened species and not coming under protected area. The requirement of forest land as proposed by the user agency is unavoidable and bare minimum. During my inspection no work in violation of FC Act or guidelines is seen carried out by user agency. The project is recommended for approval.

I. Sidhee, IFS
Divisional Forest Officer, Punalur
