13.0 ENVIRONMENT MANAGEMENT PLAN :-

13.1 BASE LINE INFORMATION :-

(1) Existing land use pattern :-

The lease area falls under Robertsganj Block of Sonbhadra Distt. The existing land use pattern of buffer zone has been described in detail under para 13.2.7.4. The buffer zone is covered by vast area of forest land (62380 Hect. out of total block area of 156619 Hect.) This is draught-prone and as such agriculture was not very extensive, which can be seen from the fact that agricultural population is very low. During the pre-mining period a large area was left as waste land and was uncared for.

Govt. cement factory Dalla started production from 1970 and an area of 751 Hect. has been transferred to The U.P. State cement Corpn. Ltd. for mining purpose. This has been transferred by the name Kajrahat area (name of the village). This is in one compact block extending west to east from Dalla cement plant.
