However, the UA has undertaken that 0.46 ha notified forest land involved in the project shall be left out from the boundary of the plot. Hence, the proposal is being recommended for diversion of 7.547 ha as establishment of the institute shall cater to the educational and training requirements of youth. It would greatly enhance the opportunity for higher education of the people living in surrounding areas. Generation of direct and indirect employment will have added benefits to the economy. The project is thus being recommended in larger public interest.
