

Recommendation Report

The proposed site for reconstruction of Murugan Panchal bridge at Kilometer 76/00 (FP/KL/ROAD/19720/2016) is inspected by me on 19.10.2016, this bridge is to be constructed on Interstate National Highway 744 which is to be used by the public, visitors to Palaruvi Ecotourism Centre and Sabarimala Pilgrims. The old bridge is narrow and damaged due to heavy traffic of interstate trucks. So the widening of existing bridge is essential for the smooth vehicular traffic.

Divisional Forest Officer,
Thenmala.
