

Recommendation Report

Project : Palar Village Electrification Project.

User Agency: Executive Engineer (Ele), CEScom, O&M Division,
Chamarajanagar.

Inspected the proposed site of the above project on 08.12.2016 along with the concerned officials. The proposed project site is located within the area of the lands given for cultivation and habitation under Forest Rights Act 2006 for local Soliga tribes of Palar hamlet. There are no trees and the person occupying the said land has given no objection certificate for setting up solar electrification project. Hence I agree with the recommendation of the DCF.

The project is coming up in the elephant habitat area. Therefore, the project is recommended subject to the laying of underground power transmission line to the individual houses from the power generation unit.

Chief Conservator of Forests,
(Territorial),
Chamarajanagar.
