

SITE INSPECTION REPORT

The site inspection for the proposed diversion of forest land of 63.441ha for National Institute of Technology, Lengpui, Mamit has been conducted on 21.01.2022. I was accompanied by DFO Mamit, Range Officer Lengpui and frontline staff. The project site falls inside Tlawng Riverine Reserved Forests and apart of the Government plantation (Gomari)1999. Tree enumeration has been carried out and as per the report, 3070 Gomari (*Gmelina arborea*) trees has already been felled. The area has some natural vegetation with locally available shrubs and grasses. Approach roads, few temporary labour sheds and electric poles for power supply have already been constructed at the project site.

The User Agency has not initiated any further progress in works at the project site as forest clearance is being sought for the project as observed during the inspection.

The proposed site is free from any archeological heritage site/defense establishments or any other important monuments.

Place : Aizawl, Mizoram

Date : 21.01.2022
