

Recommendation Report

Project : Drinking Water Supply Project.

User Agency: Executive Engineer (RDW & SD), Ramanagara.

Inspected the proposed site of the above project on 22.03.2021.

The project is coming up within the Chilandavadi reserve forest of Sangam Wildlife Range area, the project is taken up for the purpose of supply of drinking water to 298 villages. Requirement of forest land for the said proposal is unavoidable and barest minimum. The proposal may be considered in the interest of public at large.

I agree with the recommendation of the DCF, Cauvery Wildlife Division, Kollegala to consider the said proposal with the following condition.

“In case of transmission lines passing through National Parks, Wildlife Sanctuaries and Wildlife Corridors, insulated conductors shall only be used to prevent electrocution of animals”.

“For the 24X7 transmission lines insulated conductors shall only be used to prevent electrocution of animals”.

Chief Conservator of Forests,
(Territorial),
Chamarajanagar.
