

PART – III

(To be filled by the concerned Conservator of Forests)

14. Whether site, where the forest land involved is located has been inspected by concerned Conservator of Forests (Yes/No). If yes, the date of inspection & observation made in form of inspection note to be enclosed.

No,

15. Whether concerned Conservator of Forests agree with the information given in Part-B and the recommendations of Deputy Conservator of Forests.

Yes,

16. Specific recommendation of concerned Conservator of Forests for acceptance or otherwise of the proposal with detailed reasons.

The proposal is for diversion of 3.561 ha. forest land in Hazaribagh East Forest Division for construction of Hazaribagh Urban drinking Water Supply Scheme for Hazaribagh district.

The entire area is part of migratory route of wild elephants with the most recent migration being in January- February, 2022. This observation was further reiterated during the interaction with local villagers. As such, a site-specific wildlife management plan will be needed to address human- elephant interface issues.

It was noticed that the forest area has gentle to moderate slope. Therefore, a soil and moisture conservation plan have to be necessarily included to check incidental soil erosion caused by the proposed activities.

Furthermore, an avenue plantation scheme needs to be included for loss of flora in the area.

In view of the aforesaid facts, this proposal is being recommended for the diversion of 3.561 ha. forest land in Hazaribagh East Forest Division for construction of Hazaribagh Urban drinking Water Supply Scheme for Hazaribagh district.
