

PART – III

(To be filled by the concerned Conservator of Forests)

14. Whether site, where the forest land involved is located has been inspected by concerned Conservator of Forests (Yes/No). If yes, the date of inspection & observation made in form of inspection note to be enclosed.

No,

15. Whether concerned Conservator of Forests agree with the information given in Part-B and the recommendations of Deputy Conservator of Forests.

Yes,

16. Specific recommendation of concerned Conservator of Forests for acceptance or otherwise of the proposal with detailed reasons.

The proposal is for diversion of 20.555 ha. (13.240 ha. PF and 7.315 ha. GMJJ) forest land in Hazaribagh West Forest Division for construction of 33 KV transmission line from Barkhatta Power Sub-station to Chalkusa Power Sub-station.

Since the elephant movement have been seen in the past and elephant have been crisscrossing through the proposed area, hence it is essential and recommended for use of insulated transmission wire and the height of the transmission line from ground surface at sagging point should not be less than 7.5 mt. Other precautionary measures should be taken to protect the elephant from electrocution. As the proposed area has witnessed elephant movement, habitat improvement measures should also be taken up with water harvesting structures.

The proposed area is vulnerable to soil erosion which caused gully and Rill formation. Some part of the forest area have also ravines which need to be treated. Hence adequate soil conservation measures should be taken up.

The proposal is meant for construction and development of transmission system and also to mitigate the actual shortage of power due to non availability/inadequate capacity of transmission system in the area. A large number of people will be benefited by this project.

In view of the aforesaid facts, this proposal is being recommended for the diversion of 20.555 ha. Forest Land for construction of 33 KV transmission line from Barkhatta Power Sub-station to Chalkusa Power Sub-station.
