

**Recommendation Report of the Divisional Forest Officer, Giridih East Forest Division.**

The proposed diversion for Construction of 33/11 KV Power Sub Station includes following notified forest land. The details of Forest lands are as below :-

Sl.	Name of Village/Mouja	Thana & Thana No.	Plot no.	Protected Forest area in (ha)
1	2	3	4	5
1	Khapebera	Pirtand/99	58	0.5139

The proposed area is vulnerable to erosion and deficient in humus content. Scheme containing soil conservation measures should be applied for the quality management of forests. The User Agency has explored all alternatives for the project and the proposed alignment is the most suitable one. The proposal is clean and recommended to be allowed.
