

**RECOMMENDATION OF CONSERVATOR OF FORESTS**

**(Construction of 50-bedded AYUSH Hospital and Homeopathy Medical College by the Directorate of AYUSH, Government of Manipur)**

The proposed site for construction of “50-bedded AYUSH Hospital and Homeopathy Medical College” has been chosen at the proposed site as sufficient non-forest land in the vicinity of Imphal city is available. The area is a deemed private forest which was set aside in favour of one individual during the constitution of Nongmaiching Reserve Forest. The AYUSH Hospital cum Homeopathy Medical College is the first of its kind and will provide better health facility and career to youths.

The proposal for diversion of 0.99 Ha forest land for construction of 50-bedded AYUSH Hospital and Homeopathy Medical College is recommended under the following conditions:

- a) The proposed site should be clearly demarcated from the adjoining reserved forest areas by erecting boundary pillars at the project cost.
- b) Protection walls and vegetative soil conservation measures require to be constructed to arrest soil erosion.
