

**INSPECTION REPORT BASED ON THE APPLICATION FORM-A**  
**FOR FOREST CLEARANCE**

I have inspected Thamarakkad Anchuruly area on 14.06.2018 along with Range Forest Officer, Ayyappancoil. Thamarakkad is a Tribal Settlement area surrounded by Forest. At present 43 families are living there. There is a 3 mts wide 590 mts long old public mud road from Vazhavara-Kavunthi to this settlement. This mud road side is suitable for implementing single face electric line. No tree felling is required, but some small branches of 7 trees are to be removed along this path. The presence of wildlife is comparatively very few in this area.(Photograph of the area attached).

Permission may be granted to construct 1 k.m.11 KV, installing one 100 KVA transformer and construction of 2 k.m.LT single phase line under Electrical Section Painavu through the above said forest land.
