## Site Inspection Report

Proposal No.: FP/RJ/TRANS/142368/2021

Name of the Project: Construction of 11 KV HT line from 33/11 KV Bekariya Substation to Wolkem Industries Ltd. Keratarla Mine Situated near Uparla and Nichla khera, Tehsil- Bali & Kotra, District Pali & Udaipur, Rajasthan Forest Diversion proposal under FCA- 1980.

Proposal No. FP/RJ/ TRANS/142368/2021

The site was inspected by undersigned on 04.01.2022 along with DCF Udaipur North and user agency officials.

The status of forest is protected forest. The project envisages the use of forest land for laying of transmission 11 KV line and requires an area of 3.85 Ha forest land.

On transecting the area it was found that the alignment of transmission line was proposed along the road for sake of convenience and logistics.

The area need to be relooked and surveyed for alignment. The transmission line can cross the road at one or two places and thus a shorter route involving less forest land can be designed. Also there are very large old trees along road near nullahs. Realignment will save many of these trees. Thus after realignment the proposal is to be revised and submitted.

Place: Udaipur
