उदयपुर।

PART - III

(to be filled by the concerned Chief Conservator of Forests)

Proposal No.FP/RJ/TRANS/142368/2021 (3.3896 ha.)

14.	Whether site, where the forest land involved is located has been inspected by concerned Chief Conservator of forests (Yes/No.) , if yes the date of inspection & observations made in form of inspection note to be enclosed.	Yes, 04.01.2022 Inspection note enclosed.
15.	Whether the concerned Chief Conservator of Forests agrees with the information given in Part-A and Part-B the recommendations of Deputy Conservator of Forests.	Agree with the information given in Part I & recommendations of D.C.F. Udaipur (North) in part II.
16.	Specific recommendation of concerned Chief Conservator of Forests for acceptance or otherwise of the proposal with detailed reasons.	Proposal may be accepted in public interest. User agency has realigned the project and thus area required has changed from 3.85 Ha to 3.389 Ha. Also number of trees required to be cut has decreased. Thus bare minimum area is proposed which may be accepted.

Site Inspection Report

Proposal No.: FP/RJ/TRANS/142368/2021

Name of the Project: Construction of 11 KV HT line from 33/11 KV Bekariya Substation to Wolkem Industries Ltd. Keratarla Mine Situated near Uparla and Nichla khera, Tehsil- Bali & Kotra, District Pali & Udaipur, Rajasthan Forest Diversion proposal under FCA- 1980.

Proposal No. FP/RJ/ TRANS/142368/2021

The site was inspected by undersigned on 04.01.2022 along with DCF Udaipur North and user agency officials.

The status of forest is protected forest. The project envisages the use of forest land for laying of transmission 11 KV line and requires an area of 3.85 Ha forest land.

On transecting the area it was found that the alignment of transmission line was prosed along the road for sake of convenience and logistics.

The area need to be relooked and surveyed for alignment. The transmission line can cross the road at one or two places and thus a shorter route involving less forest land can be designed. Also there are very large old trees along road near nullahs. Realigning will save many of these trees. Thus after realignment the proposal is to be revised and submitted.
