13. Specific recommendations of the Dy.CF. for acceptance or otherwise of the proposal with reasons:

An existing thoroughfare inside Reserved Forests is being traditionally used by the people of Bharnewadi and other adjoining villages to reach the Biroba Mandir. The road is subjected to inundation and becomes unusable during rainy season. The present alternative available with the people/ devotees of Village Deity Biroba has multiple length and found to be inconvenient for performing their day-to-day rituals. Hence, the need is expressed for having a "all season road" .

Since, the proposed road i. e. existing thoroughfare to temple is important for local folks as it is associated with their regional identity and religious beliefs & sentiments. Hence, no alternative can be substituted for the existing alignment. The project is, therefore, the site specific. The Forest Land proposed for diversion is, thus, unavoidable. The barest minimum Forest Land, to the extent of 0.9971 Ha., is required/ proposed for the project.
