The site inspection of the land involved in the proposal has been done by me on dated 21-11-2021, on inspection of the site, It is found that the land required by the user agency for construction of Gravel Road measuring 0.4095 hectare protected forest area. This area is part of Mansa mata conservation reserve so wild life clearance is also required. An old mining pit is also situated near the entrance of eastern direction and left side of proposed road from Kishorpura to Dhanighatipura in forest area. Pucca wall is essential for protection of forest area to control illegal mining in future. So 40 meter length pucca wall with 6 feet height should be constructed at the cost of user agency. Waste Material generated during the road construction in proposed hilly area should be used in filling up the old mining pit at the cost of user agency. It is public utility work. It will connect kishorpura village to Dhani ghatipura

The requirement of forest land as proposed by the user agency in col. 2 of part-I is unavoidable and is barest minimum required for the project.
