

SITE INSPECTION

I have inspected the proposed diversion of Forest land in Senjai East Reserved Forests of Sivaganga Forest division for expansion the road NH 210 from Karaikudi-Ramanathapuram by NHAI on 07.10.2020 along with District Forest Officer, Sivaganga and the Project proponent Project Director NHAI. The Forest land required is 0.015 hectares. The land is situated near the existing road. There is no tree growth. There is no spontaneous growth of trees. The area required is bare minimum and there is no alternative alignment is possible. This patch of small Forest area does not fall in any of the wild animal migratory Corridor or pathway.

Hence, I recommend the proposal.

Conservator of Forests,
Virudhunagar Circle.
