

SITE INSPECTION REPORT

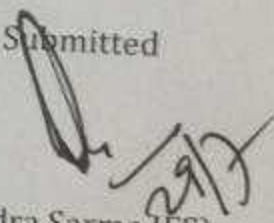

The proposed site was inspected by the undersigned on 28-07-2019. The area proposed for diversion is to an extent of 0.57 Ha. of Hawaipur RF under the Nagaon South Division, Hojai.

There is no record of rare and endangered or unique species of flora and fauna in the area, proposed for diversion. No archaeological/ Heritage site /Defence establishment or any other important monuments located in the proposed area. Movement of elephants in the RF area is observed in the said area. It is suggested that in the junctions of Pipelines (T-Shaped) sufficient quantities of earth are to be put to seal in Pipeline for easy/ smooth passage of elephants. As the area proposed for diversion is unavoidable and barest minimum, the User Agency is to take utmost care so that it does not affect free movement of elephant.
