2	Location (lat-long) of the forest land proposed for diversion.	As enclosed in Annexure -I																																																
3	Legal status of the forest land (Protected forest, reserved forests, revenue forest lands or any other forest land)	South Sagar Division- Reserved Forest Area-3.61 ha Nouradehi Wild Life Sanctuary – Reserved Forest- 268.390 ha																																																
4	Demarcation of the area with temporary cairns etc.	Yes																																																
5	Any signs of encroachment.	No																																																
6	Any activity already taken up within the forest land or adjoining non-forest land as part of the proposed project by the user agency. Details of action taken against the User Agency in case of violation of the FC Act and guidelines there under.	No																																																
7	Status of vegetation. Site quality, species composition etc.	South Sagar Division - Site Quality- BL-1 Density 0.1 Nouradehi Wild Life Sanctuary- <i>Tectona grandis</i> , <i>Lagerstromia parviflora</i> , <i>Lanea grandis</i> , <i>Anogeissus latifolia</i> , <i>Agele marmelos</i> , <i>terminalia tomentosa</i> etc. Site Quality- IV-B Density 0.2 to 0.5 Composition – Mixed forest .																																																
8	Importance of area from wildlife point of view. Status of wildlife (density and abundance of important species, bird life reptiles, butterflies and other scheduled animals, any endangered wildlife) Any latest census of wildlife in this area.	Proposed area is mostly the large part of Nauradehi Wildlife Sanctuary, where Tiger, Wolf, Sloth Bear, Leopard along with reptiles butterflies and other schedule animals are found but no such census fig for proposed area only is in record.																																																
9	Endemism of flora/fauna or any other unique ecosystem in the area.	Indian wolf is the keystone species of Nauradehi Wildlife Sanctuary. Other carnivores here include: Bengal tiger, Indian leopard, striped hyena, wild dog (Dhole), Bengal fox, Maggar crocodile, golden jackal, and bears.																																																
10	Current land use. Is this area managed as per prescriptions in the Working Plan and, if not, why ?	South Sagar Division – Yes managed by the prescriptions of working plan Nouradehi Wild Life Sanctuary- Yes the area is being managed as																																																

		per the Management plan
11	Importance of the area from historical or religious point of view.	Area has no importance from historical or religious point of view.
12	Any dependent persons/families on this land.	Nouradehi Wild Life Sanctuary- In Ghughri Total population 232 & Village Bandarchua Total population 428
13	Any displacement of persons proposed.	Village Bandarchua Total population 428 is proposed for displacement plan. Displacement plan of Ghughri village would be needed because after Completion of Project their livelihood and approach would be severally affected.
14	Is there any Rehabilitation and Resettlement Plan for the persons to be affected? Is there any dissenting voice among the persons to be affected? Is there any dissenting voice among the persons proposed to be displaced ?	Rehabilitation and Resettlement Plan to be done by the User Agency at their own cost.
15	Compensatory a forestation proposed is on forest land or non- forest land. Location of the area, suitability of the area for CA. If in the degraded forest land then what is the current Working Plan prescription for the area ? Distance of the non-forest land for CA from the nearest forest area. Number of patches in case the area should be more than kms.	Compensatory aforestation proposed is on forest land in Game Range Sarra Compartment No. RF-262, PF-213 area 50 ha. RF-246 area 40 ha., Game Range Nouradehi Compartment No PF-65 area 20 ha. Game Range Singpur Compartment No PF-54 area 20 ha. PF-63 area 50 ha. Game Range Mohli Compartment No RF-140 area 50 ha. RF-142 area 15 ha. Game Range Jhapan Compartment No RF- 282 area 20 ha. PF-134 area 24 ha. Total 289.00 ha.
16	Proposed area should not be part of any protected area. Also distance from the boundary of the nearest protected area should be more than 10 kms.	The Proposed area is a part of protected area Nauradehi Wild life Sanctuary. Proposed area is at aprx 42 kms from Rani Durgavati Wild life Sanctuary and at 175 kms from Panna Tiger Reserve Buffer Zone.
17	Dependence of tribal's in the area. Whether the rights of the tribal's have been recognized in the area.	Collector Sagar has not issued the Certificate yet.
18	Utility of the project, including the people living in close vicinity of the project.	It will provide irrigation facility to 9990 ha land of 28 villages and 5 MCM drinking water reserved for nearby villages.
19	In case of renewal whether all the conditions stipulated in the earlier sanction order have been complied with.	It is an application for allocation of fresh forest land.
20	Alternatives examined by the user agency in case of non-site specific projects.	No other options are available as per the undertaking given by the User Agency.
21	A certificate by the user agency that the forest land requested for diversion for non-forestry purpose is bare minimum.	Yes
22	Any scope of saving tree growth while ensuring that the purpose for which the forest land is being diverted is also not adversely affected.	No
23	Any other issue of significance.	-
24	Specific recommendations of the CCF with reasons for approval of the project.	Kopra Medium Project will augment irrigation in 9990 ha area of 28 Villages, as well as provide drinking water to about 28 villages in the vicinity. Being on the fringe area of Sanctuary it will also enhance drinking availability for wildlife.

Place- Sagar
